Practice Refurbishment update

Our contact numbers remain unchanged:

Telephone: 01242 234 392 & 260 144

Email: admin@macdonaldvets.co.uk

The long awaited refurbishment at the Leckhampton Surgery is finally underway. The clinic at 6 Bethesda Street closed on 17th March & is scheduled to re-open in early July. During this time, full clinical, diagnostic & surgical facilities are available at the Prestbury clinic & a Veterinary Ambulance is available to minimise the impact on clients in the Leckhampton area.

The scope of the work is extensive & includes the following:

- Structural repairs to the external walls & re-rendering
- Roof & parapet gutter replacement
- Replacement of external doors & windows
- Internal alterations with new Reception Desk & Shop Front
- Provision of air conditioning
- Provision of 2 Consulting Rooms
- Modification & extension of kennelling area
- Provision of dedicated operating theatre
- Provision of dedicated diagnostic / radiographic suite
- Provision of refurbished surgical preparation room including laboratory & film developing room

Building works are being carried out by King Builders of Gloucester & the project is being managed by CCM, Cheltenham. Both of these firms have considerable expertise with construction involving the National Health Service that has so far proved invaluable.

We have made every effort to minimise disruption, but ask for your understanding should minor difficulties arise during the build.

Thank you for your support.

Barry MacDonald BVSc MRCVS
